

# MILLENNIUM SERIES NTB5000/5

The Millennium NTBs are ideally suited to applications where Flash or high definition video content is to be played out such as in hospitality, foyers or retail advertising.

ONELAN's Net-Top-Boxes (NTBs) are a series of Digital Signage (DS) Media Player devices designed for different applications in Digital Signage Networks (DSN).

In stand-alone situations, the DS Player must be able to offer a user interface for media scheduling and media playing capability. In networked (DSN) applications a means to distribute media over a Wide Area Network (WAN) must also be provided. The NTB series provides all of these functions embedded within the media players themselves, as well as network security and software update mechanisms.

The Millennium Series has been designed to provide a platform for HD content, real time media rotation and 2 video Zones creating a high-class product.

## Millennium Series key features include:

- ✓ **Multi-media player. Video, animations, Stills, Text and Audio**
- ✓ **Pentium Core 2 Duo processing, accepting more media formats (inc. MPEG4, AVI & QT)**
- ✓ **HD Capable (to 2048 x 1536)**
- ✓ **Unlimited Zones inc. 2 video Zones**
- ✓ **Portrait or Landscape display**
- ✓ **Drag & drop design capability**
- ✓ **Zone transparency**
- ✓ **Multilingual GUI and Media Payout**
- ✓ **Integrated TV Capture option**

**NTB5000:**  
No TV Capture

**NTB5005:**  
Includes TV Capture

# ONELAN NET-TOP-BOX

The Millennium series NTB's are designed for use either as a Stand-alone box in a Premium installation, or as a Publisher in a large single DSN, where increased performance power is needed.

The units in this series now include all the capabilities of the latest software releases. The Millennium series now has preferred display language capability and the drag & drop design tool as standard.

## Premium Standalone

## Large Digital Signage Network

### Millennium Series – NTB5000/5 Specifications

<b>Enclosure</b>	- 280 x 77 x 268mm - 2u Rack Mount - optional - Wall Mount - optional
<b>Processor</b>	Pentium Core 2 Duo
<b>Storage</b>	- System RAM – 1024 MBytes - System Media Storage – 80GBytes
<b>Power</b>	180W Internal PSU with PFC
<b>LAN interface</b>	1000/100/10BaseT
<b>Video Output</b>	- VGA to 2048 x 1536 resolution via 15 'D' - 4x3, 5x4, 16x9 modes - Landscape or portrait (rotation)
