

ONELAN's New NTB500

ONELAN goes greener with a powerful solution

July 2009.....ONELAN are delighted to announce the release of the new Century NTB500-P & NTB500-S. The key features are:

- Small form factor: 223 x 178 x 26mm
- Low power consumption: using less than 12W, this is a Green solution.
- Capable of landscape or portrait multi-zone multi-media playout
- Suitable for playout of Flash and PowerPoint content; a wide range of video formats is also supported, making this a versatile solution
- Available in two versions:
 - NTB500P Publisher/Standalone
 - NTB500S Subscriber player

Any unit in the series combines with any other ONELAN Net-Top-Box (NTB) from the range to provide a cost effective solution for small to large networks.

The Century NTB500 is ideally suited to applications where the media player will be mounted behind the screen. It is perfect for environments which need multiple channels and screens such as in **retail** or in **schools**.

ONELAN was founded in 1988 and has been developing Digital Signage products since 2001. It has developed leading edge hardware appliances and software products that deliver ease of use, manageability, network security and scalability to the world of Digital Signage.

The company's Net Top Box devices are used as standalone appliances and in dynamic digital media networks within retail, education, industry, government and hospitality. ONELAN's NTBs are now installed in a variety of organisations including such well-known corporates as Airbus, ING Bank, Vodafone, Virgin Holidays and PricewaterhouseCoopers.

ONELAN Ltd is based in Henley-on-Thames, Oxfordshire.
